- Utilize best practices from over 1,700+ successful projects
- Deliver scalable solutions to meet future needs
- Get more from your technology investment

WAVE ANALYTICS SERVICES

Wave Analytics is a purpose-built application designed to help customers gain business intelligence capabilities to make important data-driven decisions. Wave Analytics is even more than business intelligence -- it enables

businesses to easily act on the information. Once you find the answer, you can take immediate action on next steps by assigning sales tasks, closing service cases and/or collaborating with key stakeholders. Native integration with Sales Cloud and Service Cloud makes it easy to connect to your data in Salesforce as well as connect to outside data sources.

Using A Salesforce Partner

The Salesforce platform of tools, development environment and third party ecosystem is flexible and highly sophisticated. MondayCall has best practices experience of working with over 500 leading companies to get the most from their investment. We help ensure that the system and architecture is done right the first time and matches your current and future business needs. We optimize your time to value significantly while ensuring that you have a solution that is effective and scalable.

MondayCall is driven by and focused on the success of your business. We have a results-oriented culture that focuses on your business goals. Quite simply, your win is our win and we take all the necessary steps to make each engagement impactful to your bottom line.

Service Offerings

MondayCall is a leading Salesforce Consulting Partner that provides a full range of services to help customers get the most value from their Wave Analytics investment.
